

Kia Ora New Zealand Wellness Advocate,

As you are aware we are currently preparing for New Zealand to become an open market. We are very excited to share with you our official launch date for New Zealand OTG is 5th December 2017. Congratulations on all you have contributed to make this happen, we truly appreciate all your hard work! Thank you for sharing your experiences with dōTERRA and supporting our growth in New Zealand.

Effective 5th December, our New Zealand Warehouse will carry the same stock you have been accessing from our Australian Warehouse. This will be supplied to you with New Zealand pricing and local, faster shipping options with shipping rewards attached for purchases through our New Zealand warehouse. Our New Zealand advocates will also still be able to access our US warehouse for NFR orders, however shipping points will no longer apply and shipping from the Australian Warehouse will no longer be available.

The following documentation is now available on the New Zealand tab of our Tools page, in preparation for when we commence as an open market on the 5th December. Please take the time to familiarise yourself with all of these resources. We are confident this information will support you with any questions you may have.

- **NZ Price List**
- **NZ Product Guide**
- **NZ Policy Manual**
- **NZ FAQ's**
- **NZ Wholesale Customer Agreement**
- **NZ Wellness Advocate Agreement**
- **NZ Shipping Rewards**
- **NZ Direct Deposit Form**

Should you wish to have your commissions paid directly into your bank account we ask that you download the direct deposit form, complete and email to directdeposit@doterra.com to set this up for you.

If you have a current LRP template set up from the Australian Warehouse, that is set to run after the 5th of December, our dedicated Member Services team will automatically transfer your template to the New Zealand Warehouse.

All of this information is now located on our New Zealand dōTERRA Tools page for your convenience.

We know 2018 will be filled with amazing opportunities as New Zealand grows and makes the most of what is on offer to our local market!

Kind Regards,
dōTERRA New Zealand
